PART ONE : READING FOR COMPREHENSION

Read the text below and do all the activities that followed

Body hygiene and Malaria

Hygiene is very important. To be healthy, we must take at least one shower every day. We must brush our teeth and drink safe water from a tap. There are many things we must not do. For example, we must not wear dirty clothes, drink water from the river and eat with dirty hands. We must keep our body clean. Our body is a fantastic machine. We must always protect it.

- 5 Malaria is a very dangerous common disease in Africa. To avoid malaria, we should always clean our house, mop the bathroom and sleep under a mosquito net. There are also a lot of things we should not do: we shouldn't throw rubbish in rivers and in streets; we should not keep dirty water near the house. Finally it is good to live clean environment because malaria terrible and kill people.
